03

**NIGHT
VISION MODE**

1080P HD ENHANCED IMAGED QUALITY

- 
- WITH SHARPER IMAGES, YOU CAN SPOT POTENTIAL THREATS MORE EFFECTIVELY.
 - IN CASE OF AN INCIDENT, HIGH-DEFINITION FOOTAGE IS MUCH MORE USEFUL AS EVIDENCE.
 - OFFERING HIGHER DETAIL VIDEOS, MAKE IT EASIER TO IDENTIFY FACES OR OTHER CRUCIAL DETAILS.

01

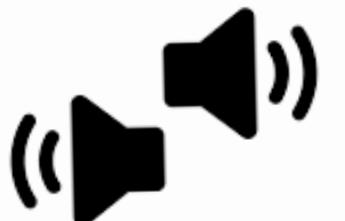

TWO-WAY AUDIO

- THE TWO-WAY VOICE FEATURE ALLOWS YOU TO COMMUNICATE DIRECTLY WITH ANYONE NEAR THE CAMERA, NO MATTER WHERE YOU ARE.

how are you doing today?

Yes today is great !

02

- HAVING CONNECTION ALL THE TIME EVEN THOUGH YOU ARE NOT TOGATHER

Night Vision

03

- feature that allows the camera to capture clear video footage in low-light or no-light conditions,
- Allow you to check on your family even on midnight in case something happens without need to turn on the light
- Ensuring that your home is always protected, day or night, light or dark
- If something happens at night, night vision ensures you have reliable, clear video footage

- Instantly detects smoke in the environment, indicating potential fire hazards

04

- Send real-time alerts to connected devices, enabling quick action to prevent fire damage

- Combines CCTV functionality with smoke detection technology to enhance safety

- Detects any unusual movement in the surveillance area
- Differentiate between normal activities (e.g., pets, wind) and suspicious movement to minimize false alarms
- Instantly alerts you when a potential intruder or thief is detected
- Optional features like loud alarm sounds or flashing lights can be triggered to scare off intruders

05

06

- Adjust settings like camera angle, zoom, or recording preferences directly from your device

- Supports multiple authorized devices, allowing family members to monitor as well

- Get real-time alerts no matter where you are

- Watch live footage from CCTV system anytime and anywhere
